▼ **The Foundry Collection**

The Foundry Collection has been created in style and finish to suit the period property. Cast in iron or brass, with a variety of finishes including limoge porcelain, each handle and backplate design is full interchangeable, giving the customer maximum design input. For extra authenticity opt for a coating of wax on top of the antique rust or antique brass. Handle sets are available self sprung, in latch, lock euro cylinder and privacy variations.

FIRST SIGHT

▲ **Setsquare Radiator**

Setsquare explores the trend for square tube radiators, with elegant, angular, vertical lines and the Bisque signature 'pepper pot' tops. This radiator has an exceptionally high heat output for its size and was designed by Pietro Securo and Mario Talin, who also designed the best selling Seta for Bisque. Setsquare is available in 14 vertical and horizontal sizes suitable for a range of applications and comes in a metallic or white finish.

▼ **Finials**

Bryony Alexander recently launched a new collection of finials to co-ordinate with their Perspex curtain poles. The finials, decorated with sparkling Swarovski crystals add an element of contemporary glamour to traditional styling which allows the range to work across a wide range of decorative schemes. This artful blending of contemporary and traditional continues in the iridescent finishes of their glamorous hand-blown glass finials and the clean lines of the Perspex accessories.

▲ **Solid Hardwood Shutters**

The New England Shutter Company offers a new way to screen conservatory roofs, glass buildings and lantern lights. Solid hardwood shutters can be custom-made to fit all roof angles and windows, bringing architectural definition as well as minutely adjustable solar shading and privacy. A wide range of timbers are available including Maple, Oak, Cherry, Teak and Walnut as well as a selection of custom finishes such as painted or covered in leather, suede or fabric.
